

GRAIN SIZER CL SERIES

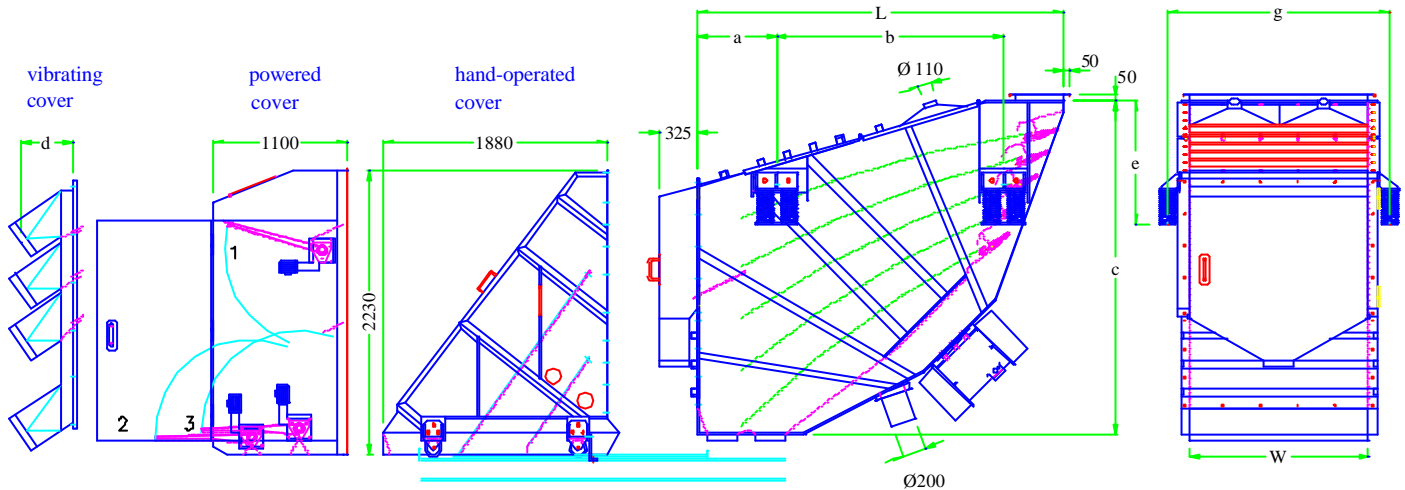

This series took the success with the series CVRS as a starting point, keeping the same characteristics. On the new series CL we increased the screening surface and, therefore, the capacity.

Advantages:

- ☞ *Very high production capacity*
- ☞ *Little spaces*
- ☞ *Good precision also with very cohesive materials*
- ☞ *Suitable for difficult work in the mining sector*
- ☞ *Electric heating of screening decks, if required*
- ☞ *Dusttight closed execution, if required*
- ☞ *Easy and quick maintenance*
- ☞ *Low power consumption*

For all our vibrating machines, we recommend the use of our electric units for the operating and braking in d.c.

W	a	b	c	d	e	g	L	kg ab.	k W
CL 1000/5	440	1900	2450	325	995	1340	2740	2450	2x4,5
CL 1250/5	655	1900	2815	325	960	1570	3055	2900	2x6,6
CL 1500/5	655	1900	2815	325	1015	1860	3055	3700	2x6,6
CL 1750/5	655	1900	2815	/	1015	2110	3055	4100	2x10,8
CL 2000/5	655	1900	2815	/	1015	2360	3055	4600	2x8,4
CL 2500/5	655	1900	2815	/	1015	2860	3055	5100	4x4,5
CL 3000/5	655	1900	2815	/	1015	3360	3055	5800	4x4,5

The execution of grain sizers and, therefore, the dimensions of same will change according to the particular use which they are studied and designed for.
